Villa La Angostura, Neuquén, Argentina

Extract

Hello I am Marcos, I live in Argentina and I am a
fullstack web developer

I'm a developer with experience in building projects using SCRUM
methodology and my strengths are teamwork, critical thinking,
decision making, adaptability, and tolerant of other opinions

I'm interested in web development, artificial intelligence, and
cybersecurity (i don't know too much about this field but I would
to learn)

Tech skills: JavaScript | React | Redux | Node | Express |
PostgreSQL| SCRUM | Sequelize | CSS | Github | Git | Typescript
| Firebase auth | TailwindCSS | MongoDB | Mongoose

Experience

Henry
3 months

Front-end backend developer Emme3D
december 2022 - january de 2023 (2 months)
Argentina

In charge of developing the front end, dashboard admin, shopping cart,
payment gateway, and part of the backend of Emme3D
Emme3D is a small business that sells products impressed in 3D or makes
impressions by request. In this project
I worked with a team using SCRUM methodology and MERN stack, also we
use redux and gitflow

Front-end developer
November 2022 - december 2022 (2 months)

Individual project of the fullstack bootcamp of Henry where i use the PERN
stack, this indiidual project can
1)call the pokeapi and show pokemons
2)see the stats of the pokemons
3)search and filter pokemons
4)create and save your own pokemons (PostgreSQL)
